

Proplity Complete Guide

Step-by-step visual walkthrough of every page, feature, role, and workflow — in plain language anyone can understand.

 Updated: 2026-10-04

 100+ Screenshots

 6 Roles Covered

 3 Screen Sizes

What is Proplity?

Proplity is an all-in-one property management platform built for the Nigerian real estate market. Think of it like a **digital property office** that connects everyone involved in renting a home.

Tenant

Pays rent, reports repairs, manages lease

Landlord

Owens properties, tracks revenue

Manager

Runs daily operations for landlords

Vendor

Fulfills repair and maintenance jobs

Admin

Oversees the entire platform

Quick Reference: Test Login Accounts

ROLE	EMAIL	PASSWORD	PRIMARY PURPOSE
Tenant	tenant@proplity.com	Password123!	Pay rent, report repairs, view lease

ROLE	EMAIL	PASSWORD	PRIMARY PURPOSE
Landlord	landlord@proplity.com	Password123!	Manage portfolio, track revenue
Manager	manager@proplity.com	Password123!	Daily operations for landlords
Vendor	vendor@proplity.com	Password123!	Complete repair jobs, submit invoices
Admin	admin@proplity.com	Password123!	Platform governance and oversight

First-Time Platform Setup

Super Admin Bootstrap — one-time only — done before anyone else can use the platform

0

The Setup Page `/setup`

When Proplity is installed for the very first time, there are **no admin accounts at all**. The `/setup` page is a special one-time wizard to create the first "super admin" account. After the first admin is created, this page permanently disables itself for security — it can never be used again.

If you navigate to `/setup` and get redirected to the login page, the platform was already set up. The super admin already exists.

WHAT YOU SEE ON THE SETUP FORM

- › Full name field for the first admin account
- › Email address (becomes the admin login email)
- › Password (must be strong — letters, numbers, symbols)
- › A single "Create Admin Account" submit button

Setup page

Mobile 390px

Step-by-step setup instructions:

Open `http://yourdomain.com/setup` (or `http://localhost:3000/setup` in development)

If the form appears, fill in your **Full Name** , **Email** , and a strong **Password**

Click **Create Admin Account**

You'll be redirected to the login page automatically

Log in with the email and password you just set

You are now inside the Admin Dashboard — setup is complete!

Security note: This page cannot be accessed again after setup. To reset admin access, a developer must modify the database directly.

Visitor / Public Experience

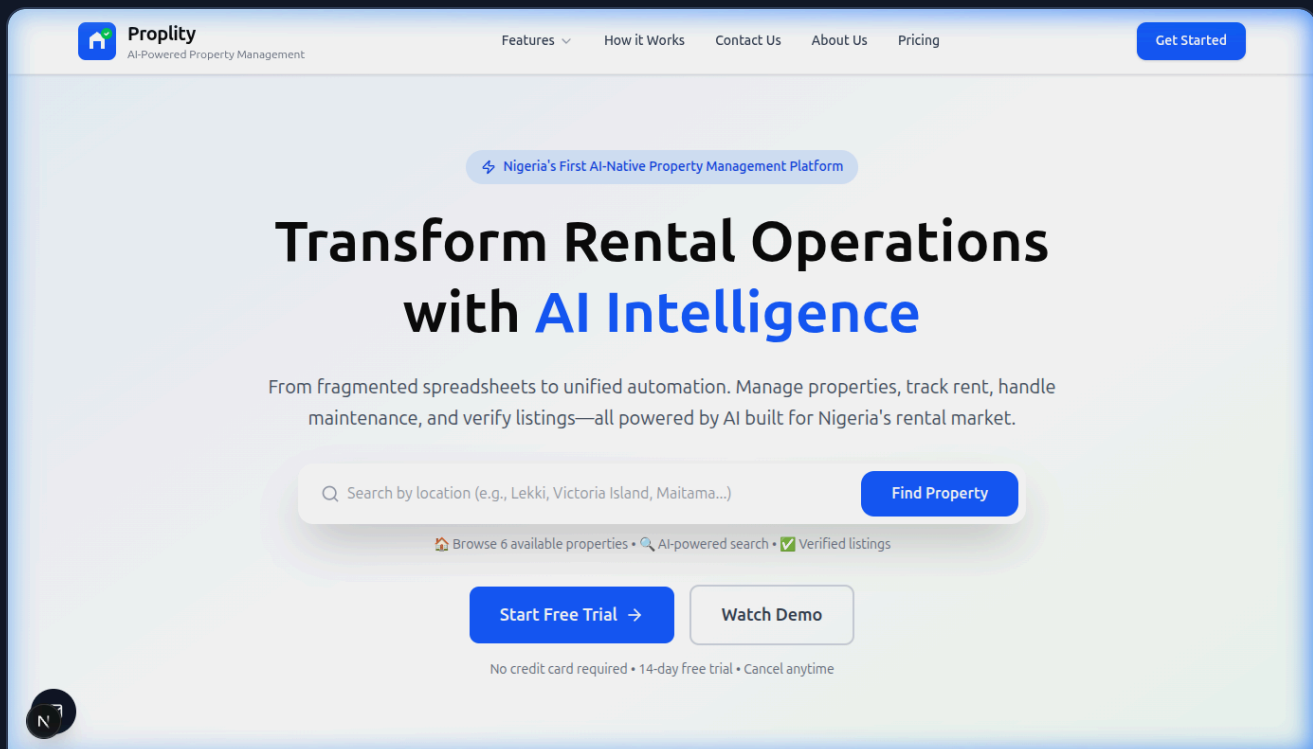

No login required — anyone who opens the website

1.1 The Homepage

The very first thing anyone sees when they visit Proplity. Designed to immediately showcase what the platform is about and display real rental properties across Nigerian cities like Lagos, Abuja, and Port Harcourt.

WHAT YOU SEE

- › A large hero banner with "Get Started" and "Browse Properties" buttons
- › A "How it works" section (step-by-step for tenants and landlords)
- › Featured Properties section with real cards pulled from the live database
- › Platform trust badges and statistics

How Proplity Works

Get started in minutes, not weeks

1

Add Your Properties

Import properties and units via CSV or add them manually. Set rent terms, upload documents, and invite tenants.

2

Automate Operations

AI handles invoicing, reminders, maintenance triage, and renewals. WhatsApp assistant answers tenant queries 24/7.

3

Get Insights & Scale

Track payments, predict late payers, analyze performance, and scale from 1 to 5,000+ units effortlessly.

1.2 Property Preview Modal (Pop-up Card)

When you click a property card on the homepage, a **modal** (pop-up overlay) appears — letting you quickly preview a property without leaving the homepage. Click left/right arrows to browse multiple properties. Press **Esc** or click outside to close.

Property preview modal (1st property)

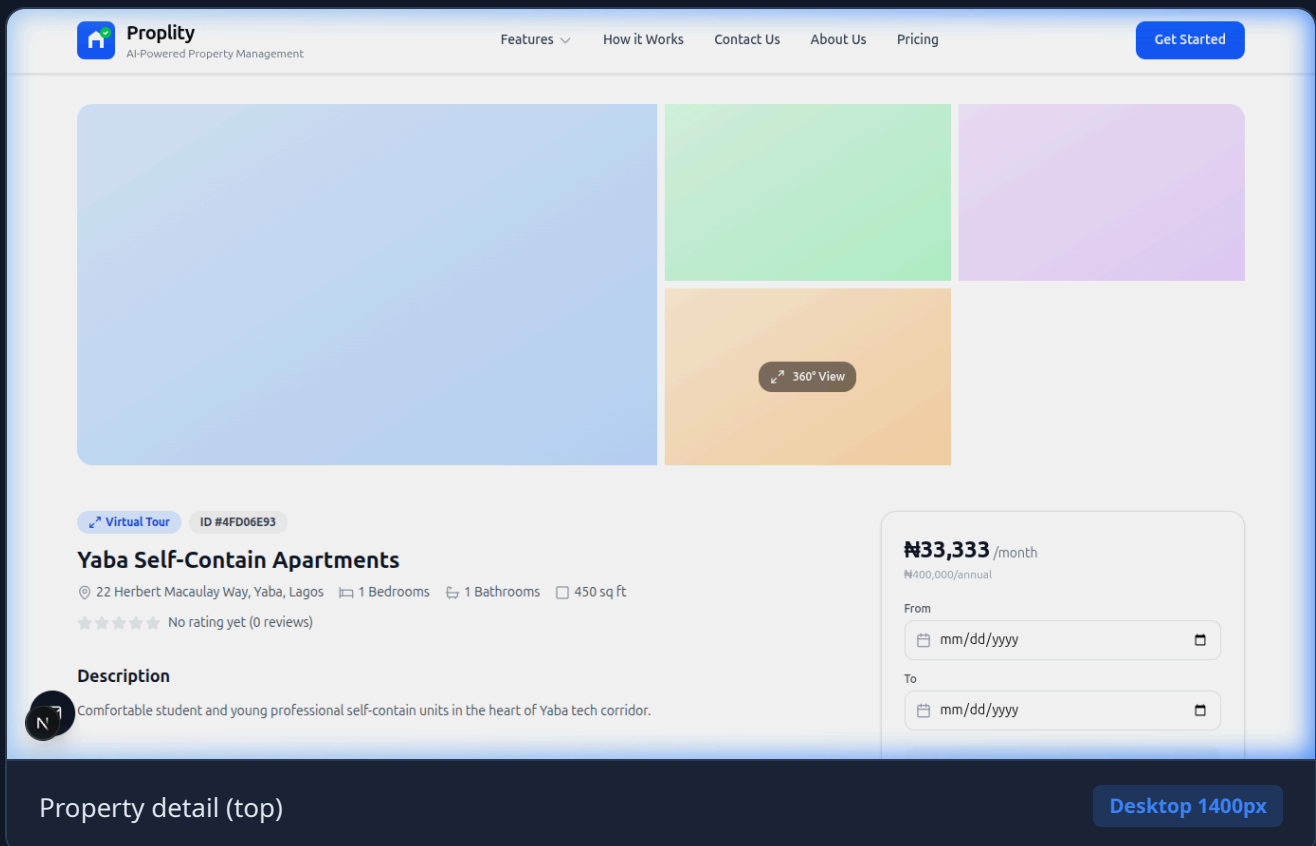

Property modal (2nd property — arrow navigation)

1.3 Full Property Detail Page

The complete page for a single rental property. Everything a prospective tenant needs to decide if they want to apply — photos, amenities, neighbourhood scores, and action buttons.

WHAT YOU SEE

- › High-resolution photo gallery at the top
- › Property name, location (area + city), and rent price
- › Full description from the landlord or manager
- › Complete amenities list (power, water, security, internet, parking...)
- › Neighbourhood metrics scored out of 10: Safety, Flood Risk, Road Infrastructure
- › **Schedule a Viewing** and **Apply for this Property** buttons

Description

Comfortable student and young professional self-contain units in the heart of Yaba tech corridor.

Security & Anti-Enumeration: Proplity always displays the same generic confirmation message whether the email address exists in the system or not, preventing bad actors from guessing valid user accounts. Password reset tokens expire automatically after 60 minutes.

Tenant Flow

Login: tenant@proplity.com / Password123! — Pays rent, reports repairs, manages tenancy

2.1 Tenant Dashboard (Home Screen)

After logging in, the tenant lands on their personal dashboard — the command centre showing everything important at a glance: current property, rent due, maintenance status, and quick actions.

The screenshot displays the Proplity Tenant Dashboard. The header includes the Proplity logo, a user menu for 'Jordan Hayes (Tenant)', and notification, settings, and profile icons. The left sidebar contains navigation links: 'My Dashboard' (active), 'Browse Properties', 'Payment History', 'Messages', 'My Rentals', and an 'AI Assistant' section with an 'Open AI Chat' button. The main content area is titled 'My Rental Dashboard' and includes a welcome message. It features a 'Quick Actions' section with three buttons: 'Generate Report' (Neighbourhood insights), 'Message Manager' (Get in touch), and 'Request Repair' (Submit issue). Below this are three summary cards: 'Current Property' (Highland Park Residences, Unit 4B, marked ACTIVE), 'Rent' (₦3,500,000/annual, marked Paid), and 'Next Payment Due' (None outstanding). A 'Property Information' section at the bottom lists the address (12 Admiralty Way, Lekki Phase 1, Lagos), lease period (1/1/2026 - 12/31/2026), and property manager information, with a link to 'Messages' for reaching the property manager.

2.7 Maintenance Request (Report a Repair)

Something broken? Submit a maintenance request — the manager assigns a tradesperson (vendor) to fix it. Pick a category, urgency, describe the problem, and optionally attach photos.

The screenshot displays the Proplity Maintenance Board interface. The top navigation bar includes the Proplity logo, a user dropdown menu set to 'Tenant', a notification bell, a settings gear, and a user profile for 'Jordan Hayes (Tenant)'. The left sidebar contains navigation links for 'My Dashboard', 'Browse Properties', 'Payment History', 'Messages', 'My Rentals', and an 'AI Assistant' section with an 'Open AI Chat' button. The main content area is titled 'Maintenance Board' and describes it as 'Kanban-style maintenance request management'. It features three columns: 'New Requests' (0 items), 'In Progress' (1 item), and 'Completed' (0 items). The 'In Progress' column contains a card for a 'Kitchen Sink Leaking' issue, marked as 'HIGH' urgency. The card details the problem, the tenant 'Jordan Hayes (Tenant)' at 'Highland Park Residences - 4B', the date '9/29/2026', the category 'Plumbing' with an estimated cost of '£25,000', and its assignment to 'Apex Repairs & Plumbing'. A 'View Details' button is at the bottom of the card. Below the Kanban board, three summary cards show 'Total Requests' as 1, 'Resolution Rate' as 0% (0 closed of 1), and 'Total Spent (Completed)' as £0.

4.4 Reviewing Tenant Applications (4-Stage Approval)

When a tenant applies online, it arrives in the manager's queue. The manager reviews, approves, creates the lease, then activates it. Four distinct stages.

The screenshot displays the Proplity AI-Powered Property Management dashboard. The top navigation bar includes the Proplity logo, a 'Property Manager' dropdown, a notification bell with 2 alerts, a settings gear, and a user profile for Alex Vance (Manager). The left sidebar contains navigation links: '+ List Property', 'Dashboard', 'Discover Properties', 'Tenants', 'Maintenance', and 'Messages'. The main content area is titled 'Eko Atlantic Penthouse' and shows a 'Has Vacancy' status. It lists property details: Plot 4, Marina District, Eko Atlantic, Lagos, Lagos; 4 Bedrooms, 4 Bathrooms, 2,800 sq ft; and an annual rent of ₦6,000,000. A 'Trust Score' of 99 is shown with the note 'No reviews yet'. Below this, the 'Units & Tenants' section shows 'Unit PH1' as 'Vacant' with a '4 bed - 4 bath - ₦6,000,000/annual' configuration. The 'Rental Applications' section indicates 'Pending applications for units on this property'. The 'Listing Status' section shows 'Moderation' as 'PENDING REVIEW' and 'Visibility' as 'Published', with an 'Unpublish Listing' button. The 'Equipment' section shows 'No equipment tracked yet.' with an '+ Add' button. An 'AI Assistant' chat button is also visible in the sidebar.

Tenancy & Move-in Inquiries

Direct message

Jordan Hayes (Tenant)

Hello Alex, I wanted to confirm if the move-in inspection for the penthouse is confirmed for this Friday at 10:00 AM?

9/26/2026, 12:09:28 PM

Hi Jordan! Yes, absolutely. Friday at 10:00 AM is confirmed. I will meet you at the reception with the keys and the condition checklist.

9/26/2026, 12:39:28 PM

Jordan Hayes (Tenant)

That sounds great! Will the estate access card and parking permit be ready as well?

9/26/2026, 1:09:28 PM

Yes, both the smart biometric pass and 2 designated underground parking permits are already programmed and ready for handover.

Maintenance Dispatch — Apex Repairs

Direct message

Alex Vance (Manager)

Hi Team Apex, we have an assigned plumbing job for Lekki Heights Unit 203. The resident reported a leak under the kitchen sink.

9/26/2026, 12:09:28 PM

Received! Our lead plumber is in Lekki Phase 1 today and can be on-site within 30 minutes to inspect the drain fittings.

9/26/2026, 12:29:28 PM

Alex Vance (Manager)

Perfect, access code has been texted to the tenant. Please generate the itemized invoice through the portal once completed.

9/26/2026, 12:49:28 PM

Update from technician: Replacement P-trap and copper fittings have been installed. Work is complete and pressure tested. Submitting invoice now.

Auto-complete maintenance jobs on invoice

When on (default), a vendor submitting an invoice for a maintenance request automatically marks that request as Completed. Turn this off if your vendors invoice interim costs (e.g. materials) partway through a job and you don't want that to close it out.

Platform settings & configuration

Desktop

Full Cross-Role Lifecycle

How Tenant → Manager → Vendor → System work together on a complete tenancy

Tenant Application → Active Lease → Rent Payment → Repair → Resolution

WHO	ACTION	RESULT
Tenant	Browses properties and schedules a viewing	Manager receives viewing request
Manager	Confirms viewing time	Tenant gets confirmation email
Tenant	Submits 3-step rental application	Application arrives in manager's queue
Manager	Reviews application → Approves	Tenant gets "Approved" notification
Manager	Creates lease agreement (dates, rent, terms)	Lease sent to both parties for e-sign
Tenant	Signs lease digitally	Lease status → ACTIVE
System	Auto-generates monthly rent invoice	Tenant sees "Pay Now" on dashboard
Tenant	Pays rent via Paystack	Payment recorded, receipt generated
Tenant	Reports a repair (e.g. leaking tap)	Maintenance ticket created
Manager	Assigns ticket to a vendor (plumber)	Vendor gets notified

WHO

ACTION

RESULT

Vendor

Visits property, fixes the tap

Updates status to "Completed"

Vendor

Submits invoice for labour + parts

Manager receives invoice for payment

Tenant

Confirms repair complete

Ticket closed
